Heat N Sta® Tearaway

This tearaway stabilizer has a light fusible coating and was developed for embroidery on light to medium weight cotton, shirt weight denim, linen and other woven fabrics that tend to distort or stretch when they are hooped or when the embroidery is forming. The most unique and beneficial feature of this product is the fusible coating. This eliminates the need for messy spray adhesives which leave a residue on the needle, machine and fabric. By fusing the stabilizer to the back of the fabric, we are more successful in hooping and do not stretch the garment out of shape. Most importantly, the stabilizer is attached to the entire area where the embroidery will be stitched unlike spray adhesives which only “spot” tack and allow shifting of the fabric. This product is also well liked because it offers a clean tear from around the design. It is also available in a non-fusible version and is called Floriani Medium Tearaway.

- Use for solid type embroidery designs on light to medium weight woven fabrics such as batiste, linen, shirt weight denim, pin-point cotton, quilt cottons, etc.
- Makes hooping a snap by eliminating shift and stretch within the fabric
- Fibers of the fabric will not move during the stitching process
- Will support about an 8,000-stitch count, well digitized design.
- Tears away clean from around the embroidery design.
- No need for basting or spray adhesives!

FHS1210 (12" X 10 YARDS)

FHS2010 (20" X 10 YARDS)

FHS1510 (15" X 10 YARDS)

Medium Tearaway®

Floriani Medium Tearaway is manufactured using a unique process which eliminates thick and/or thin spots. When used as an embroidery stabilizer, it is not necessary to use multiple layers in random directions to support stitches. Medium Tearaway is a 1.5 oz, clean tear stabilizer. It is the best choice for a supplement stabilizer when working on high stitch count designs in conjunction with your other stabilizers such as No-Show Nylon Mesh, Heat N Sta Tearaway® or Wet N Stick®. It provides back up support without adding unwanted bulk.

- Use to support embroidery designs on towels, denim or other “stable” woven fabrics
- Tears clean from around most embroidery designs
- Will support about 8,000 stitches on a well-digitized, average size design
- Use in conjunction with other stabilizers for added support.

FTM1210 (12" X 10 YARDS)

FTM2010 (20" X 10 YARDS)

FTM1510 (15" X 10 YARDS)

FTM20100 (20" X 100 YARDS)

Stitch N Wash® Tearaway *Water Soluble Tearaway Stabilizer*

STITCH N WASH is a 1.5 oz unique tearaway made of both water-soluble and non-soluble fibers. It is ideal to use for decorative machine stitching or as a companion “floater” to its sister product, Stitch N Wash Fusible for machine embroidery. Once this stabilizer is dampened, the tearaway and soluble fibers are easily removed from around the stitching. However, the design will retain the non-soluble part of the stabilizer throughout the life of the garment. This makes it a perfect choice for airy, open-work type embroidery and/or decorative machine work on linen, batiste and delicate cottons.

For embroidery, it is important to use our fusible version of Stitch N Wash Tearaway as the hooped product and the non-fusible version as a “floater”. This eliminates the possibility of shift during the hooping and embroidery process. By fusing the Stitch N Wash Fusible onto the back of the fabric, it will aid in keeping the fabric taut and eliminates the need for basting or messy spray adhesives.

- Easy to remove from around delicate embroidery or machine stitching.
- Won't shadow through light colored fabrics.
- Eliminates countless hours of “picking” out stabilizer remnants.
- Super stable and will support about 8,000 stitches if the design is well-digitized.
- Perfect for stabilizing satin stitching when doing machine appliqué.

FSW1210 (12" X 10 YARDS)

FSW2010 (20" X 10 YARDS)

Perfect Stick® Tearaway

With Perfect Stick Tearaway, embroidery in almost any area is achievable! Enjoy quality stitching with no residue build up or gummy needles. Perfect Stick Tearaway is ideal for hard to hoop items such as bulky towels, backpacks, collars, napkin corners, or socks. Also use for fabrics that can be damaged by the hooping process, a.k.a. Hoop Burn. With Perfect Stick Tearaway you will enjoy the stability of a firm yet flexible stabilizer that will support all types of embroideries on most fabrics. In addition, this unique tearaway consists of partially water-soluble fibers, making it extremely easy to remove from the back of satin stitching or delicate embroidery.

FPS1210 (12" X 10 YARDS)

FPS2010 (20" X 10 YARDS)

FPS1510 (15" X 10 YARDS)

Stitch N Wash® Fusible Tearaway

Water Soluble Tearaway Stabilizer

STITCH N WASH FUSIBLE is a 1.5 oz unique tearaway made of both water-soluble and nonsoluble fibers with a temporary fusible coating. It is ideal for airy, open-work type embroidery and decorative machine stitching on linen, batiste and delicate cottons. Once this stabilizer is dampened, the tearaway and soluble fibers are easily removed from around the stitching. However, the design will retain the non-soluble part of the stabilizer throughout the life of the garment.

The temporary fusible coating eliminates the possibility of shift during the hooping and embroidery process. By fusing the Stitch N Wash Fusible onto the back of the fabric, it will aid in keeping the fabric taut and eliminates the need for basting or messy spray adhesives.

- Easy to remove from around delicate embroidery or machine stitching.
- Won't shadow through light colored fabrics.
- Eliminates countless hours of "picking" out stabilizer remnants.
- Super stable and will support about 8,000 stitches if the design is well-digitized.
- Perfect for stabilizing satin stitching when doing machine appliqué.

Cutaway Medium®

Floriani Medium Cutaway is a very soft yet solid 2.0 oz stabilizer that will support medium to heavy stitch count designs. It is ideal for fabrics that are considered unstable; fabrics such as fleece, t-shirts, sweatshirts, polo knit, etc.

- Use on non-stable stretch fabrics.
- Will support a design density of about 14,000 stitches and well digitized.
- Super soft feel makes it ideal for sweatshirts, fleece and sweater knits.

FCM1510 (15" X 10 YARDS)

8 44050 00334 1

Cutaway Medium® Fusible

Cutaway Medium Fusible 2oz

Floriani Cutaway Fusible is a very soft yet solid 2.0 oz stabilizer that will support medium to heavy stitch count designs. It is ideal for fabrics that are considered unstable; fabrics such as fleece, t-shirts, sweatshirts, polo knit, etc. Floriani Medium Cutaway Fusible stabilizer has a light fusible coating and is ideal for knits that tend to distort or stretch when they are hooped and/or when the embroidery is forming. This also eliminates the need for messy spray adhesives which leave a residue on the needle, machine and fabric. By fusing the stabilizer to the back of the garment, we are more successful in hooping and do not stretch the garment out of shape. Most importantly, the stabilizer is attached to the entire area where the embroidery will be stitched unlike spray adhesives which only "spot" tack and allow shifting of the fabric.

Power Mesh® Fusible

Floriani Power Mesh Fusible is a 1.8 oz sheer cutaway available in onyx, natural and nude colors. Unlike traditional cutaway, this product will not shadow through on light colored fabrics such as knits. Its softness makes it ideal for children's clothing and baby garments. The uniqueness of the fusible version makes this product a staple in your embroidery stabilizers. There is no need for basting or messy spray adhesives which leave a residue on the needle and machine when using this product. By fusing the stabilizer to the back of the garment, we are more successful in hooping and do not stretch the garment out of shape. The stabilizer is temporarily attached to the entire area where the embroidery will be stitched unlike spray adhesives which only "spot" tack and allow shifting of the fabric. This product is also available in a non- fusible version.

- Will support around 10,000 stitches on an average size, well- digitized embroidery design (4" x 4").
- Will not shadow through on light weight cottons and knits.
- Fusible coating creates a non-stretching foundation for flawless embroidery in knits and other "unstable" fabrics!

Perfect Stick® Cutaway

Perfect Stick Cutaway is Floriani's solution for embellishing and embroidery on challenging fabrics such as sweater knit, stretch velour/velvet, leather, pleather, vinyl, ultra-suede and more. Use this needle-friendly, sticky cutaway to secure hard-to-hoop items within the embroidery frame. Ideal for items or fabrics that could be damaged by the hooping process. Floriani's Perfect Stick Cutaway offers the **absolute correct foundation** for fabrics such as leather and vinyl which require the elongated fibers offered in this premium cutaway.

- Needle Friendly Adhesive holds most fabrics and items securely
- Cutaway Foundation is ideal for knits and other stretch fabrics
- Non-fibrous fabrics can be safely embellished without fear of "cutting"
- Soft foundation feels comfortable against the skin
- Generally, supports a 12,000-stitch count – well digitized design

This product is washer/dryer friendly but should be tested before using within your project.

FPSC1510 (15" X 10 YARDS)

Water Soluble Topping®

Floriani Water Soluble Topping provides a smooth stitching surface for your machine. When the stitch must maneuver around loops and grooves in the fabric, it will affect your stitch quality. This product is completely water soluble and provides fantastic stability on the surface of your fabric by keeping your stitches elevated.

- Use on textured fabrics such as corduroy, seer sucker, and velvet.
- Use on knits and lycra/spandex.
- Use to shield some fabrics from hoop burn
- Once opened, keep Floriani Water Soluble Topping sealed in a sealed, air-tight bag or container.
- Cover the uneven surfaces for "in the hoop block-building" to prevent the presser foot from catching during the embroidery process.

FTOP1510 (15" X 10 YARDS)

Wet N Gone®

This unique product is a fibrous water-soluble stabilizer and does a superior job of supporting dense embroidery designs. Embroider most free-standing lace with just one layer! Its clean rinse capability makes it the best choice when using it with delicate fibers such as yarn scarves or English netting. It is currently available in a fusible as well as a sticky version.

- Create free standing lace and use just one layer for most designs
- Perfect for making appliqués, decorative pins and/or 3-D embroidery.
- Rinses clean leaving no messy residue
- Use as a topping for wide satin stitch designs on high pile fabrics for perfect results!

FWG1210 (12" X 10 YARDS)

FWG1510 (15" X 10 YARDS)

FWG2010 (20" X 10 YARDS)

Wet N Gone® Fusible

This unique product is a fibrous water-soluble stabilizer but also has a light fusible coating which aids in hooping and fabric control. The water-soluble base does a beautiful job of supporting dense embroidery designs on fabrics where complete stabilizer removal is desired. Its clean rinse capability makes it the best choice when using it with delicate fibers such as yarn scarves or English netting. Also use for sheer fabrics such as organdy, organza, lame, sheer silks and more to establish a solid type fabric that is easier to hoop and embroider. Once the embroidery is complete, all the stabilizer rinses away and will not shadow through.

FWGF1210 (12" X 10 YARDS)

Wet N Gone Tacky®

This fibrous water-soluble stabilizer features a pressure sensitive coating for holding hard to hoop items in place while you stitch or embroider. The water-soluble base does a beautiful job of supporting dense embroidery designs on most fabric styles where complete stabilizer removal is desired. Use for holding down corners of napkins and handkerchiefs, collars and cuffs as well as the edges of hand towels, ribbons and more!

Use the new tape size rolls for turning up hems for flawless stitching, securing decorative trims and edging or use as an ideal foundation for built in decorative stitches.

The new printable sheets provide a perfect template for thread painting, red-work, cross-stitch, bead work and more! **Print, stick, stitch, wash!**

FWGT1510 (15" X 10 YARDS)

FWGT-1/2X10 (1/2" X 10 YARDS TAPE)

Hi-Loft Dimensional Topping

This unique product is a fibrous and completely water-soluble stabilizer that lifts your satin stitches to create a "puffy" effect. This "fleece-like" topping can be added to most embroidery designs including logos, satin borders or lace to create a 3-dimensional finish! No adjustments to your design or fonts is needed. The wider the satin stitch, the more Hi-Loft Dimensional Topping will puff up. Once the embroidery is complete, simply rinse the Hi-Loft away.

- Create free standing lace with 3D effects
- Perfect for appliqués
- Create textured trim
- Create "puffy" lettering

FHLT-HALF
40" x 1/2 yard

Dream Weave Fusible®

When adding embroidery to your most delicate fabrics such as silk, satin, lame or chamois, you can experience shredding. This occurs because the fragile fibers of the fabric are not capable of handling the constant penetration of the needle during the embroidery process. This can also occur in fabrics such as Swiss Batiste, top quality quilt cottons and linen, Lycra or spandex which are often used in dance uniforms or bathing suits. By fusing Floriani Dream Weave Fusible to the back of the fabric it helps to protect the fabric by giving it more body yet doesn't change the face or drape of the fabric. This product can also be used as a lining in all types of fabrics for suits or garment construction. It is important to remember that Dream Weave is not a stabilizer. It is a very important step to prepping or preparing delicate fabrics for embroidery.

Another great use for Floriani Dream Weave is to cover scratchy stitches on the backside of embroidery designs. This is especially nice for baby garments, youth apparel or golf shirts. Because it is a 6 way stretch, Dream Weave® will move with the garment and won't add unwanted bulk.

- Creates a bond with delicate fabrics without changing the face or drape of the fabric
- Fuse over the back of an embroidery design to cover scratchy stitches.
- Keeps fabric from raveling or shredding during the embroidery or stitching process.

FDW (30" X 3 YARDS WHITE)

FDW3025 (30" X 25 YARDS WHITE)

Dream Weave Ultra®

Definitive Support for Your Most Challenging Embroidery!

Use Floriani Dream Weave Ultra for adding extra support to light weight or delicate fabrics when stitching dense or large embroidery designs. Floriani Dream Weave Ultra adds a light layer of support so the embroidery stitches will not cause damage or distortion to the fabric. Fuse Dream Weave Ultra into place for an instant increase in thread count without adding bulk or changing the drape of the fabric – and use less stabilizer! Floriani Dream Weave Ultra can also be used as an interlining for dress and suit weight fabrics for apparel.

- Great for embroidery on delicate or unstable fabrics.
- Increases thread count of the fabric without adding bulk.
- Protects the fabric from needle sheering or damage.
- Decreases the amount of stabilizer required for the embroidery design.
- Won't change the drape of the fabric.
- Use to fuse over the back of scratchy stitching for soft, supple embroidery!

FDWU (30" X 3 YARDS WHITE)

FDWU3025 (30" X 25 YARDS WHITE)

Dream Weave Supreme®

Fusible Woven Support for Your Most Challenging Embellishments!

Floriani Dream Weave Supreme adds extra support to light weight, loosely woven or delicate fabrics when embellishing with embroidery, appliqué or quilting. When stitching dense or large embroidery designs, Floriani Dream Weave Supreme adds a crucial layer of support so the embroidery stitches will not cause damage or distortion to the fabric. Fuse Dream Weave Supreme into place for an instant increase in thread count without adding bulk or changing the drape of the fabric – and use less stabilizer! Floriani Dream Weave Supreme® features a permanent bond can also be used as an interlining for dress and suit weight fabrics for apparel.

- Great for embroidery on delicate or unstable fabrics.
- Increases thread count of the fabric without adding bulk.
- Protects the fabric from needle sheering or damage.
- Decreases the amount of stabilizer required for the embroidery design.
- Won't change the drape of the fabric.
- Use to enhance quilt fabrics for more accurate piecing.
- Helps to hide "shadow through" of light-colored fabrics appliquéd over darks or prints.

Heat N Gone®

Heat N Gone® is a unique topping/stabilizer that is removed with the touch of a dry iron or heat press. Use on high pile and textured fabrics such as towels, knits and velvet to keep your stitching elevated and smooth. It is also ideal for fabrics that cannot withstand moisture such as delicate raw silk, pashmina and wool. Great when giving a gift and you need instant stabilizer removal! Use only on fabrics that can withstand the direct touch of an iron.

- Clear and Easy to see through
- Easy to remove
- Embossed backside prevents curling and shifting
- Perfect for fabrics that can't be wet such as velvet, wool, satin, etc.
- Trace intricate quilt patterns onto Heat N Gone for an easy guide when free motion quilting or thread painting.
- Prevents loops from sneaking back through on high pile fabrics such as towels and terry cloth.

Template Tearaway®

Getting our embroidery designs placed in the appropriate position can be time consuming and frustrating. Placement of an embroidery design in a bordered area such as a quilt square or pocket can also present a challenge for even the most skilled embroiderer. Template Tearaway gives you the visual help you need to make your hooping experience much easier. The 8.5" x 11" sheets are ready to print and work on almost all types of printers and copiers. Use your favorite embroidery software to print out a template of your design, peel back the protective paper and stick the Template Tearaway to the fabric or garment for an accurate hooping guide! Use to combine intricate patterns for borders or large multi-hoop designs..... accuracy doesn't get any easier!

FTT
(25 PRINTABLE 8 ½" X 11" SHEETS)

Appli-Kay Wonder®

Floriani Appli-Kay Wonder is a specialized webbing material which is fusible on one side and sticky on the other! Use for traditional or machine embroidered appliqué to hold pieces in place while you stitch without gummy needles! Enjoy the soft and flexible texture of Appli-Kay Wonder when layering pieces. The pressure sensitive side makes positioning small detailed pieces a snap! Also use to hold free standing embroideries or patches in place while you stitch. Now available in convenient printable sheets.

FAW183 (18" x 3 YARDS)

Color Keep Topping®

Floriani brings you a NEW topping to enhance embroidery when stitching contrasting color situations... Our new Color Keep Topping is ideal when stitching a dark design on light colored fabric or in an opposing situation of stitching a light-colored embroidery on dark or busy colored fabrics. The colored topping eliminates “show through” of the background fabric through the embroidery and enhances the color of the thread. This new topping also does a superb job on towels and terry cloth in keeping the pile pushed down, even though repeated launderings.

Color Keep Topping gives satin stitched “wrapped” edges the solid finish you desire!

Heat N Sta® Fusible Fleece

Add dimension to your embroidery and quilting projects with Floriani Heat N Sta Fleece®. Create soft home dec items such as placemats, table runners and crib quilts. This unique product is similar to traditional quilt batting only with a fusible side to keep the fleece in place while stitching through it! Heat N Sta Fleece® is ideal for machine embroidered or T-Shirt quilts as it does not have to be quilted to maintain the fibers of the batting. It is machine washable, dryer and/or drycleaner safe.

The uses for both of this unique and versatile products are unlimited and because it is fusible, stitching can be as random as you desire!

Essentials TOOL SET

FIVE essential instruments created for every type of sewist, crafter, quilter and embroiderer! Selected from over TWENTY YEARS of industry knowledge using the very BEST QUALITY materials to create them!

All tools electro-plated in a bright metallic blue finish, nestled in a stylish Floriani Embossed carrying case.

Precision Angled Tweezers
Fine tip to grab even the finest threads.

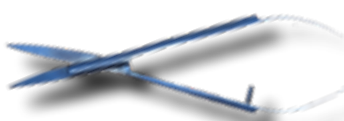

Double Curved Embroidery Scissors
Easily cuts over the edge of the embroidery hoop.

Precision Tip Scissors
Micro-tip easily reaches small areas.

Appliqué Scissors
With mini duck bill for trimming closely around small areas.

Squeeze N Snip
Spring action precision trimming tool.

Floriani Notions

Squeeze N Snip Tool

These unique-lightweight snips are ideal for hand or machine embroidery and the squeeze-spring cutting action is perfect for tire or arthritic hands. The curved-fine tip makes trimming tight jump stitches a breeze even in hard to reach areas! **FLT-1**

Precision Angle Tweezer

These multi-use tweezers have an ultra-fine point for precise thread/stabilizer picking while quilting, embroidering and crafting! **FLT-2**

Trim Safe Angled Scissor

This exclusive Floriani Design Trim Safe Angled Scissor is perfect for trimming stabilizer, fabric and lace. The ball tip on the lower blade protects fabric from snags and accidental cuts. The angled design is perfect for giving you the ultimate amount of control. **FLT-4**

Floriani Snips

With Floriani Snips, creating armor just became a snap! This scissor's extra-long blades allow for smooth and precise cutting, making it perfect for the heavy and dense materials that go into making armor. The enlarged handle is designed for unisex use and comfort, so anyone and everyone can become an expert cosplayer! You will never have to struggle with cutting foam, plastics, leather, and other bulky materials ever again.

FLSNIP

Pressing Cloth

A recently revealed secret of the Floriani family is to "heat set" the embroidery design once it is sewn. Using a Floriani press cloth will protect the embroidery thread from the surface of the iron while "setting" the color and stitch formation. Your embroidery will be perfect after it is laundered! Now you can own the press cloth used and recommended by Walt himself!

Floriani Thread Swatch Guide

Floriani Polyester, Rayon Variegated, and Mixed Embroidery Thread are high sheen, high tensile strength; lubricated embroidery threads add magnificent color and luster to your finished projects. Available in 360 colors of 1000m spools and in 180 colors of 5000m spools, each of these threads contains a five-year dye lot, ensuring that these threads are color fast and strong.
