Floriani Quilting Software Update

Build 3214

Release Date: 2/14/17

This update includes new features for both My Decorative Quilter II (MDQ2) and Total Quilter (FTQ). If you own MDQ2 only, please refer to the "My Decorative Quilter II Update Features" section only. IF you own Total Quilter, all features shown in MDQ2 and FTQ sections are available in your software.
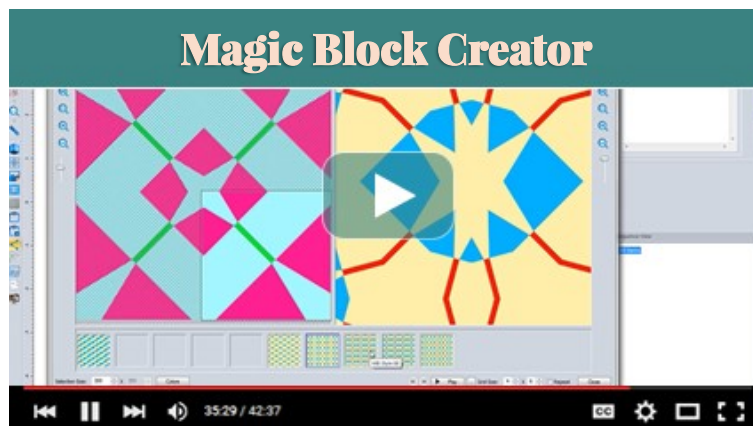

My Decorative Quilter II Update Features

These features are specific to MDQ2 software. If you own Total Quilter, these features are included in your software as well.
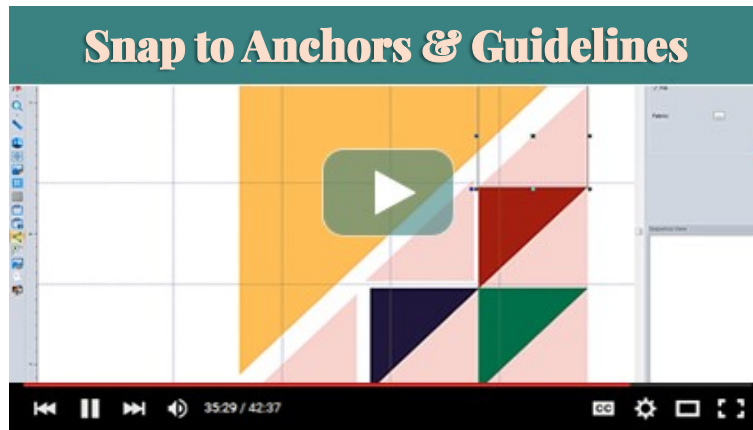

Magic Block Creator

This exciting new feature allows you to design new and totally original quilt blocks in a fun, easy, and creative way. But, that isn't all. You can also - just as easily - create unique fabric patterns that can be used to print your own custom fabric.

Snap to Anchors & Guidelines

When creating an artwork shape we added the ability to have points snap to anchors/nodes/points and Guidelines as you create structures. Make sure to watch the video to see these options in action.

Quilter's Select Thread Charts

Now, use the two thread charts to apply Quilter's Select thread colors to your designs.

- Quilter's Select Para-Cotton Poly
- Quilter's Select Perfect Cotton Plus

Support for Floriani Variegated Thread

Now, preview your embroidery design with Floriani Variegated Thread colors - these threads were added to the end of the Floriani Poly thread chart. Or, create your own variegated thread chart. This is a fun and easy way to see what your designs will look like if you choose to use variegated thread.

Total Quilter Update Features

These features are available in Total Quilter Software only. If you only own My Decorative Quilter II, these features will not be available in your software. If you own My Decorative Quilter II and would like access to these amazing features, please contact your local Floriani dealer and ask about the Total Quilter trade-up special to add to your My Decorative Quilter II software.

Applique Block Export

This is a style similar to Standard Appli-Quilt blocks, however, you choose a base fabric that will lie below all other fabric pieces. This technique gives all the benefits of a standard Appli-Quilt block while adding more stability and support. This technique can be a great choice for quilts that will be hung vertically.

Applique Export Option
