

Floriani Quilting Software Update

Build 3161

Release Date: 11/14/16

This update includes new features and enhancements for both My Decorative Quilter II (MDQ2) and Total Quilter (FTQ). If you own My Decorative Quilter II only, please refer to the “My Decorative Quilter II Update Features” section only. If you own Total Quilter, all features shown in MDQ2 and FTQ sections are available in your software.

My Decorative Quilter II Update Features

These features are specific to MDQ2 software. If you own Total Quilter, these features are included in your software as well.

MDQII New Features

Repeat Design Save valuable time creating patterns or symbols that repeat throughout a block using the Repeat tool.

Texture and Adv. Stippling Window Now see thumbnails of all the Textures and Advanced Stippling patterns from the preview window. This makes it easier to find the perfect pattern for your project.

Convert to Perfect Circle or Square The new feature make it easy to take a not-so-perfect circle or square and turn it into just that.

Guidelines Guidelines will now show up on top of artwork.

Thread Color Matching Now, have the software automatically convert colors in designs to your favorite thread brand using the color match on loading option.

Total Quilter Update Features

These features are available in Total Quilter Software only. If you only own My Decorative Quilter II, these features will not be available in your software. If you own My Decorative Quilter II and would like access to these amazing features, please contact your local Floriani dealer and ask about the Total Quilter trade-up special to add to your My Decorative Quilter II software.

In the information below, the letters “AQ” stand for “Appli-Quilt.”

Enhanced Workflow
