

How to Download and Install the exclusive “Floriani Free Monthly Designs”.

Updated - August 2026

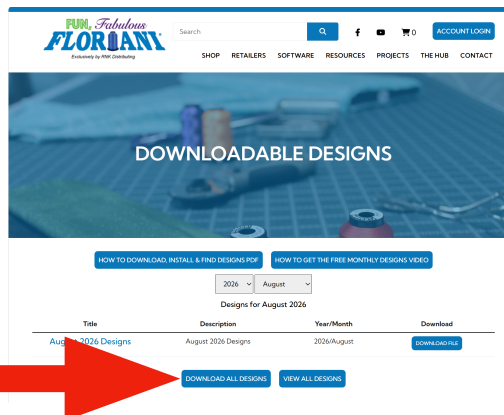

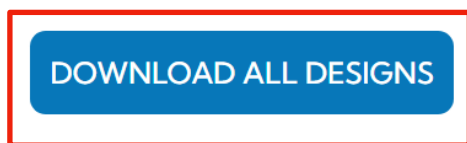

- **Part one** is the instructions to download and install the complete collection from 2009 to the current month with the “download all designs” button.
- **Part two** is the instructions on how to download and install any single month.

Part one - How to Download and Install the Complete Collection of Floriani Free Monthly Designs

Step 1 - Open your Floriani Software and look on the opening window for the button “Have you collected your Floriani Free Monthly Designs”. That will open a web browser to the page where you can download the file.

Step 2 - Click on the link to “Download All Designs” and that will begin the file download. The Floriani Asset file will be saved into the default folder for downloads.

Step 6 - View the collection using the Floriani Design Finder.

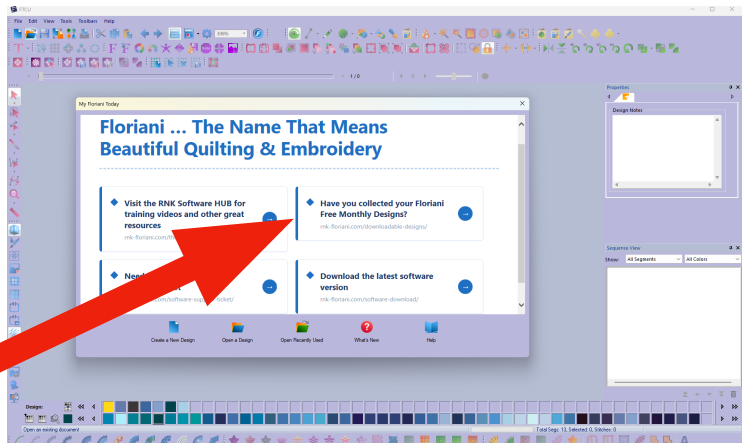

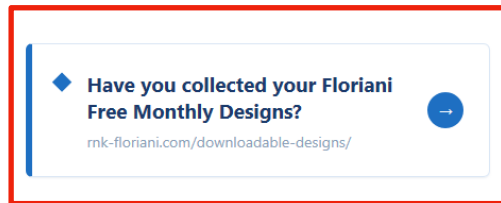

Step 6a - Notice that the collection is saved into the Floriani Library at the bottom left of the Design Finder window. FYI - This is the location of the Floriani Free Designs Library **C:\Floriani\Designs**

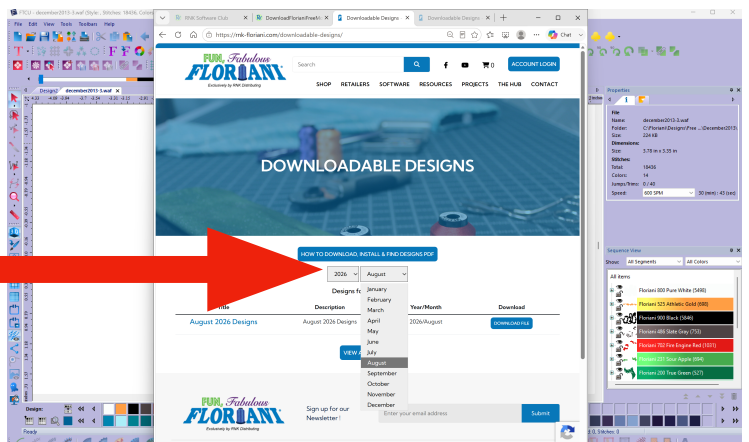

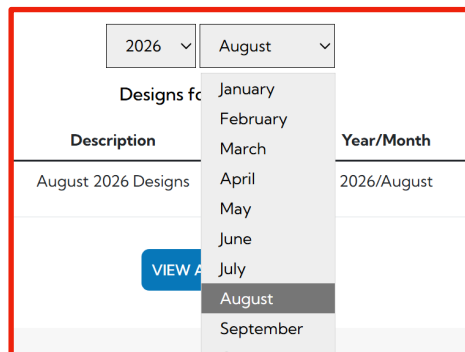

Note - If the designs are not immediately found in the design library you need to re-start your Floriani Software to refresh the list.

Part two - How to Download and Install One Single Month Free Designs

Step 1 - Open your Floriani Software and look on the opening window for the button “Have you collected your Floriani Free Monthly Designs”. That will open a web browser to the page where you can download the file.

Step 2 - Use the provided Drop Down Menu to select the month and year and it will update to show the file selected.
